An SAIC Company

Project Status

- Further discussion at September 2001 T1S1 meeting.
 - Resolved: no known technical issues
 - Open: International Policy issue – agreement of both governmental agencies to utilize SS7 resources in a foreign country
 - Resolved: edit T1.111.8 to reflect the use of ANSI SS7 PCs in non-North American countries.
- Proposed resolution of International Policy issue
 - Determined that issue is only for International Point Codes
 - Referred conclusion to T1S1 management and ATIS Legal for concurrence
- Remaining Issue
 - Assignment of PCs prior to T1S1 approval of T1.111.8 – at least January, maybe 6 months – Administrator has 3 pending applications
 - Potential resolution: conditional assignments
 - ATIS authorization letter requested
 - Telcordia (as Administrator) to include a disclaiming statement on revised application forms
